SUMMARY

I am a passionate cyber tech enthusiast who enjoys solving cybersecurity problems and continuously learning about the field. I have hands-on experience with security tools like Wireshark, Linux and maintain a positive mindset toward my work. I am skilled in team management, possess strong leadership qualities, and enjoy exploring new places and cultures. Additionally, I have completed training in networking and Cybersecurity with CIALFOR and CISCO during my 6th-semester program.

EDUCATION

Chitkara University, Punjab	B.E. in CSE with specialization in cyber security	July 2022 - May 2026
D.A.V. Public School New Shimla H.P.	class 12 th	83% August 2021
D.A.V. Public School New Shimla H.P.	class 10 th	91% June 2019

PROJECTS

Web Sentinel (Cybersecurity Project)

A Python script with LM Studio: AI-Powered Remediation for Web Application Vulnerabilities .To seamlessly integrate an on-premises LLM (via LM Studio) with a Python script for generating actionable fixes for each detected vulnerability and keep your platform safe using various tools.

Keeps you safe from attacks and malwares such as DDOS, Phishing, SQL injection , XSS and many more loops.

Tech used : Python 3 , LM Studio , Requests, BeautifulSoup4 and various tools

Skills gained : Python scripting ,networking , network scanning , firewall invasion , protocols, Linux

This project was made under guidance of CIALFOR & CISCO trainers

Nayi Disha (Full Stack Project)

A job-finding portal for freshers that includes learning resources, courses, and an option for counselling from industry leaders.

Tech used : React.js with CSS , Node.js with Express , MongoDB , HTML

Skills gained : Team handling ,front end & backend tools such as react and MongoDB

TECHNICAL SKILLS

- Strong Networking skills with operating system such as Linux & windows.
- Programming Language : Python & C++
- Familiar with network security tools such as Wireshark, Nessus, etc. & kali Linux.
- Up-to-date with emerging cyber threats and tech. , especially in Artificial Intelligence (AI)
- Knowledge of Firewall, VPN, logs, TCP/IP protocols, Vulnerability assessment etc.
- Strong practical and critical thinking skills for implementing security measures

SOFT SKILLS

Leadership quality, Excellent communication skills, Fluent English & Hindi, Adaptable to any culture

CERTIFICATIONS

- CISCO CCNA - Networking , CCNA - Switching & Routing , CCNA - Security & Automation
- CISCO Python Essentials 1&2 , CISCO - Intro to cybersecurity
- Google generative A.I. by Google cloud , Leading team & people

EXTRA CURRICULUM ACTIVITIES

- Club head & coordinator at the office of student affair of my university (2 years).
- Organized numerous college events and actively participated in many others
- Member of University Cricket Team; contributed to winning several titles
- Head boy and cultural organizer in school.
